Explosives Safety
The U.S. Army Technical Center for Explosives Safety (USATCES) was established in 1988 by a General Officer Steering Committee (GOSC) formed to review the Army's explosives safety program. Our challenge is to implement sound vigilant explosives/chemical agent/ordnance and explosives (OE) safety principles. USATCES is an element of the Defense Ammunition Center (DAC), McAlester, OK. It is comprised of the Associate Director's Office and three subordinate divisions.

Defense Ammunition Center (DAC) Web Users,
You must have a DAC web site User ID and Password to access DAC's secure website.
This is NOT a JHCS or MIDAS User ID and Password
If you already have a DAC web site User ID and Password click here: Login.
If you do not have a DAC web site User ID and Password click on the "Request Access" button below to request one. A User ID, Password and log on instructions will be emailed to the address on your request.
Request Access
To access DAC's Public Web Page, click here: DAC Public. No User ID and password will be required, but site access is limited.
If you need further assistance, contact webaccess@dac.army.mil or (918) 420-8441.

Welcome to the
Defense Ammunition Center
As a member of the United States defense community, we have many unique and special capabilities that serve the ammunition industry, both government and private, around the globe. This Oklahoma-based organization is part of the U.S. Army Joint Munitions Command, which is the largest subordinate command under the U.S. Army Materiel Command. Together we are ready with relevant products and services to be responsive to all our customers requirements.
